Dear Lena:

I have a few moments to write you a note. I was going to send you a birthday card and my neighbor passed away the day it should have been mailed so in the sorrow of that family I forgot it. I was going to put in the Scofield family Bible Eugene's death and I discovered that the only

death entered was Mrs. Claypool's in Eugene's writing so you see there is Thad, Frank, Celia, Ella, Balzora, Sherman, Eugene. If you have the name & date of death correct and will send them to me I will write them according to date of death they should all be written before Eugene's. If you can get all of them and be sure they are correct I will

see that the record is up to date. I do not intend to keep the things that belong to the Scofield family but at present I am not giving anything to anyone as it all seems part of Eugene's life. I have been asked for his Bibles that have his sermon notes pasted in them but felt I could not part with them now as his Bibles

Are so marked that I like to read what he has marked. I have been wishing you would write to me. If there is anything you want to know about Eugene's last days I will be glad to write you,
With love,
